AbulÉdu - Bug #2665

Gwibber plante au démarrage

05/02/2013 16:34 - Jonathan Tessé

Statut:	New - Nouveau	**Début:**	05/02/2013
Priorité:	Normale	**Echéance:**	
Assigné à:		**% réalisé:**	0%
Catégorie:		**Temps estimé:**	0.00 heure
Version cible:	AbulÉdu - Serveur - 11.08		

Description

Quand on le lance depuis le menu, demande de mot de passe pour le trousseau de clés, puis plus rien.

Depuis le terminal :
Traceback (most recent call last):
